

Noise Nuisance Recorder: Quick, Practical and Very Easy to Use

When People Try Before They Buy - They Buy  **RION**

- Outer pilot case for covert deployment
- Looks the same whether empty or full

- Everything you need fits in the case
- Really light and compact

- All components already connected inside case
- Set up on site can take less than a minute
- 2 buttons are all that's required   and it's running

- Mains power and 24 hour battery backup
- Secure lockable inner case

Systems come with:

- Free training and technical support
- Easy to use handset
- Wireless remote
-  **RION PB1 Software**

Instant Access - Simply click on the files for playback

Position cursors to instantly calculate event levels

Downloading Synchronised Level Data and Audio is this easy...

Why put up with kit that nearly works?

 **RION - Kit that really works!**

Nuisance Recorder System Components

NL-32 Class 1

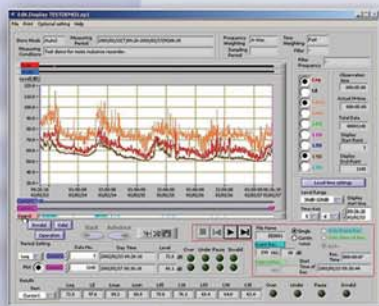

Integrating Logging Sound Level Meter

- Data and Audio Time & Date stamped & synchronised inside the meter
- Highly versatile top quality instrument for all-round use
- Unrivalled ease of use
- Massive data storage capacity
- 100 dB linearity range
- General audio recording capability triggered by event level and/or periodic recording
- Real time octave/third octave and FFT options available

NL-22PB1 Software

- Converts multiple Rion audio files to standard WAV files quickly and efficiently
- Synchronised level data and audio files displayed on level time graph
- Choose and play audio files directly from the display
- Zoom feature for detailed analysis of events
- Calculates noise levels between chosen cursor positions to distinguish event levels from background
- Can be used with general audio and/or level data from NL-32 not just nuisance recorder data

NRH - 1 Handset

- Large colour-coded buttons with bright LEDs showing whether system is recording
- Up to 8 hours total recording time
- Auto-stop for recording counteracts complainants forgetting to press stop button

Wireless RF Remote

- Enables audio recording to be controlled from anywhere in the complainant's dwelling
- Invaluable for complainants with limited mobility

NC-74 Calibrator

- Class 1 Acoustic Calibrator for use with standard 1" and 1/2" microphones
